Rope Play Equipment with Eyebolts

Installation Recommendations

The eyebolts will be found on the ends of the rope or on the edges of the nets.

The equipment has been manufactured in accordance with BSEN1176/77 and should be installed as per these guidelines.

The eyebolts must be installed as per the picture, otherwise it will put stress onto the threaded part of the bolt. The shoulder of the eyebolt must be fitted flush to the timber or steel equipment.

EYEBOLTS

***Eyebolts 'SHOULD' always be positioned so the 'EYE' is vertical -
Shown SOLID BLACK***
